Windows 10 – How to connect to Southeast Secure Wireless Network as a Wifi-Guest

1. Click the WiFi icon in the system tray

2. Select SoutheastSecure or SoutheastResnet. Click Connect

3. Enter the provided guest account username and password
4. You may be prompted to accept the network certificate. Click **Connect**

5. You will then be connected to the network

6. Now you will need to register your device on the network

7. Open a web browser and go to the address **splat.semo.edu/wifiguest**. Enter the provided guest account username and password once again.
8. Scroll to the bottom of the screen and click I Accept

9. You will receive a message that the registration was successful. Reboot the device.
