1. Click the wireless connection icon in the system tray.

2. Choose **SoutheastSecure**.

3. Click **Connect**.

4. In the **User name** text box, type your user name. In the **Password** text box, type your password. Click **OK**.

5. Click **Connect** to validate the server certificate.

You have to register your wireless network card one time per semester before the wireless connection will work. To do this:

- Open your Internet browser.
- Follow the ResNet connection instructions on the ResNet Registration webpage. If your browser does not redirect you to the ResNet page, type in [http://type splat.semo.edu](http://type splat.semo.edu) in the address bar.

Your computer is now setup to automatically connect to the SoutheastSecure wireless network. Your computer should automatically connect to this network when it detects the signal.
