X. **ACADEMIC HONESTY**

Academic honesty is one of the most important qualities influencing the character and vitality of Southeast Missouri State University. Academic dishonesty is defined to include those acts which would deceive, cheat, or defraud so as to promote or enhance one's scholastic record. It includes: academic misconduct, dishonesty, plagiarism and cheating or knowingly or actively assisting another person in doing the same. Violations of academic honesty represent a serious breach of discipline and may be considered grounds for disciplinary action, including dismissal from the University. Students are responsible for upholding the principles of academic honesty as they would any other professional and ethical standard. Refer to: http://www6.semo.edu/judaffairs/code.html

*Note:* Faculty may add specific sanctions regarding academic dishonesty within the parameters outlined in the University Policy for Academic Honesty.

XI. **CIVILITY AND HARASSMENT**

A major determinant of a successful educational experience is a shared sense of respect among and between the students and their instructor. Some of the texts and issues we will discuss may cause disagreements among members of the class. Multiple viewpoints are an essential component of any college course, and disagreeing with someone is fine. However, rude, disrespectful, aggressive, offensive, harassing, or demeaning behavior—either face-to-face or in an online discussion—toward anyone in the class will not be tolerated; students are expected to abide by the Code of Student Conduct (http://www6.semo.edu/stuconduct/code.html). Should a student feel someone has acted inappropriately toward them in class, please speak with the instructor at once so the situation can be addressed. The instructor for the course reserves the right to ask a student to leave the classroom or the online discussion for any inappropriate behavior, and if the situation warrants, may call campus security to remove the offending student from class.

XII. **DISPOSITIONS**

Professional Dispositions for Educational Leadership

The Dispositions, as assessed within Educational Leadership are guided by the central core of the Conceptual Framework. The beliefs and attitudes related to the areas of competence, reflection and caring, were the guiding force in establishing the dispositions assessed at the beginning and end of coursework. These dispositions continue to be validated by P-12 personnel, faculty and the candidates themselves as the evaluation process evolves. An Improvement Disposition Plan (IDP) form was created to inform and remediate the candidates who did not meet or exceed the expectations of the unit.
