I. Catalog Description and Credit Hours of the Course:

The Military Science Lab will be 0 credit hours and consist of training under the Army Doctrine for Physical Readiness Training (PRT).

II. Prerequisite (s): None

III. Purposes or Objectives of the Course:

A. Students will conduct PRT three days per week.

B. PRT will be student lead with an instructor present to facilitate.

IV. Student Learning Outcomes:

A. Increase physical fitness and overall health

B. Identify effective leadership style

V. Expectations of Students:

A. Respect one another’s opinions. Never belittle someone else’s comments, answers, questions, or actions in class.

B. Prepare for class. Discussions and exercises will be much more fruitful and entertaining if everyone is participating from a position of insight rather than a position of ignorance.

C. In a leadership development class such as this, participation is almost as important as preparation.

D. Everything should ultimately relate to leadership - in particular, YOUR leadership style, YOUR future leader actions or YOUR leadership decisions. For every lesson you must identify the leadership reaction and be prepared to discuss with the class. You must be able to articulate what you have learned as a result of that lesson that you will apply in your role as a future leader.
VI. Course Content or Outline:

A. Army PRT – 36 hours

VII. Textbook(s) and/or Other Required Material or Equipment

A. All material will be provided by Military Instructor
   1. Army Field Manual 7-22 (Physical Readiness Training)

VIII. Basis for Student Evaluation

A. Course will be pass/fail. Students will be evaluated on attendance and must be present for 90% of meeting times.

X. Academic Honesty

Academic honesty is one of the most important qualities influencing the character and vitality of an educational institution. Academic misconduct or dishonesty is inconsistent with membership in an academic community and cannot be accepted. Violations of academic honesty represent a serious breach of discipline and may be considered grounds for disciplinary action, including dismissal from the University. Academic dishonesty is defined to include those acts which would deceive, cheat, or defraud so as to promote or enhance one’s scholastic record. Knowingly or actively assisting any person in the commission of an above-mentioned act is also academic dishonesty. Students are responsible for upholding the principles of academic honesty in accordance with the “University Statement of Student Rights” found in the STUDENT HANDBOOK. The University requires that all assignments submitted to faculty members by students be the work of the individual student submitting the work. An exception would be group projects assigned by the instructor. In this situation, the work must be that of the group. Academic dishonesty includes:

A. Plagiarism. In speaking or writing, plagiarism is the act of passing someone else’s work off as one’s own. In addition, plagiarism is defined as using the essential style and manner of expression of a source as if it were one’s own. If there is any doubt, the student should consult his/her instructor or any manual of term paper or report writing. Violations of academic honesty include:
   1. Presenting the exact words of a source without quotation marks;
   2. Using another student’s computer source code or algorithm or copying a laboratory report; or
   3. Presenting information, judgments, ideas, or facts summarized from a source without giving credit.

B. Cheating. Cheating includes using or relying on the work of someone else in an inappropriate manner. It includes, but is not limited to, those activities where a
student:

1. Obtains or attempts to obtain unauthorized knowledge of an examination’s contents prior to the time of that examination.

2. Copies another student’s work or intentionally allows others to copy assignments, examinations, source codes or designs;

3. Works in a group when she/he has been told to work individually;

4. Uses unauthorized reference material during an examination; or

5. Have someone else take an examination or takes the examination for another.

XI. Disabilities

Southeast Missouri State University and Disability Support Services remain committed to making every reasonable educational accommodation for students with disabilities. Many services and accommodations which aid a student’s educational experience are available for students with various types of disabilities. It is the student’s responsibility to contact Disability Support Services to become registered as a student with a disability in order to have accommodations implemented.

XII. Questions of Concerns

Questions, Comments or requests regarding this course or program should be taken to your instructor. Unanswered questions or unresolved issues involving this class may be taken to the Senior Military Science Instructor, CPT Tyson Mele (e-mail: tmele@semo.edu, Phone: 573-651-2427).
