Environmental science is fundamental to our quality of life. Environmental science seeks to preserve and improve our environment for ourselves and future generations.

Environmental science is an inter-departmental, interdisciplinary degree program based in the College of Science, Technology and Agriculture. It is a diverse, hybrid field of study that is based upon strong training in the natural sciences, mathematics, law, economics, and health.

The curriculum for the B.S. in environmental science consists of a core of approximately 60 credit hours and 20-30 additional credit hours in one of six degree option areas. All students participate in internships and/or research. This education and training provides multiple opportunities for graduates in the growing environmental field.

Environmental Science students will...
- Complete a science-intensive interdisciplinary curriculum providing a foundation to address environmental issues of today and the future.
- Study in modern classrooms and laboratories in the remodeled Magill Hall of Science.
- Gain valuable professional and personal experiences through internships and/or research.
- Be well prepared to enter career positions in the environmental field or to pursue post-baccalaureate education programs.
- Develop the competencies to become professional and community leaders in efforts to develop a sustainable society.

Career Planning
Each student works individually with a faculty advisor in their area. The advisor assists students with curricular planning and development of clear career goals.

Approximately 70% of environmental science graduates directly enter the work force. All graduates seeking employment in the environmental field have obtained a relevant career position.

Approximately 30% of environmental science graduates continue their education in graduate programs in the sciences, law school, MBA programs, or medical school.

Environmental Science: Chemistry Option

Bachelor of Science (BS)

This is a guide based on the 2014-2015 Undergraduate Bulletin and is subject to change. The time it takes to earn a degree will vary based on several factors such as dual enrollment, remediation, and summer enrollment. Students will meet with an academic advisor each semester and use DegreeWorks to monitor their individual progress.

**CURRICULUM CHECKLIST**

Environmental Science: Chemistry Option - 82-88 Hours Required

- BI153 Introduction to Organismal Biology (4)
- BI352 General Ecology (3)
- BS105 Environmental Biology (3)
- CH185/085/005 General Chemistry (5)
- CH186 Foundations of Inorganic Chemistry (3)
- CH187 Inorganic Chemistry & Qualitative Analysis (2)
- CH271 Foundations of Analytical Chemistry (6)
- CH311 Foundations of Physical Chemistry (4)
- CH341 Foundations of Organic Chemistry (4)
- CH342 Organic Chemistry Lab I (1)
- CH430 Environmental Chemistry (3)
- EC344 Environmental Economics (3)
- EV201 Environmental Science Seminar I (1)
- EV401 Environmental Science Seminar II (1)
- EV454 Risk Assessment Applications (3)
- EV481-483 Internship (3)
- EV491-493 Research (3)
- EVxxx EV Course (300-500 level) (3)
- GO110 Physical Geology (3)
- GO385 Environmental Soil Science (3)
- GO386 Environmental Hydrology (3)
- MA139 Applied Calculus (3)
- OR
- MA223 Elementary Probability & Statistics (3)
- PH106 Physical Concepts (3)
- OR
- PH120 Introductory Physics I (5)
- PH121 Introductory Physics II (5)
- UI429 Environmental Ethics (3)
- UI443 Professional Experience in Chemistry (3)

Choose 6 Hours:

- UI331 Foundations of Biochemistry (3)
- UI360 Recycling & Waste Management (3)
- UI373 Earth and Life Through Time (3)
- UI386 Environmental Health (3)
- UI387 Environmental Law & Public Policy (3)

Choose One Course:

- CH313 Physical Chemistry Lab (3)
- CH344 Organic Chemistry Lab II (2)
- CH391 Undergraduate Research (1-3)
- CH447 Advanced 1 & 2 Dim NMR Techniques (3)
- CH545 Organic Preparations & Characterizations (3)
- CH575 Chemical Instrumentation (4)
- CH531/533 Foundations of Biochemistry (3)

**FOURTH YEAR**

Degree requirements for all students: a minimum of 120 credit hours, completion of University Studies program, career proficiencies (CL001-004), Writing Proficiency Exam (WP003), and completion of the Measure of Academic Proficiency and Progress (MAPP) at the freshman and senior levels.

A minimum 2.00 GPA in the major and overall are required to graduate with a BS in Environmental Science degree.

Refer to the Undergraduate Bulletin or DegreeWorks for additional graduation requirements (i.e. minimum GPA and coursework) for your program of study.
