Research Assistantship for Undergraduate Students

Do you want to earn about $600 per month while you are enjoying the beauty of mathematics? If your answer is 'yes', please consider applying for the position of research assistantship.

Job description:

- You will be conducting research with Dr. Xiang-Sheng Wang on the areas of applied analysis, differential equations, dynamical systems, and mathematical biology.
- You may choose to work during any time period in the spring semester of 2016.
- You will be paid at minimum wage of $7.65 per hour, with maximum 20 working hours per week. This means that you could possibly earn more than $600 in one month.

Minimum requirement:

- You are an undergraduate student at SEMO during the spring semester of 2016.
- You have taken MA350 (Differential Equations I) class and received a minimum grade of 'B'; or you are enrolled in MA350 class for the spring semester of 2016.
- You will be able to spend at least 60 hours during the spring semester of 2016 to work on the research projects with Dr. Wang.

Job application:

- Please contact Dr. Xiang-Sheng Wang (Office: JH203; Email: xswang@semo.edu) should you be interested in the job opportunity.
- Review of applications will start immediately until the position has been filled.
