It is important to note that Wi-Fi media devices will be unable to use Southeast Secure/Southeast ResNet wireless services, as most do not come preloaded with the necessary software to be compatible with SEMO’s wireless encryption.

Step 1: Finding the MAC address

Step 2: Connect the Apple TV to Ethernet.

Step 3: From the Apple TV’s home menu, select “Settings”.

Step 4: From the Settings menu, select “About”.

Step 5: Look for “Ethernet ID” and find the six two-character groups, separated by a colon. This is the MAC address.

Registering the Device

Using a computer, browse to http://splat.semo.edu/gameconsoles/.
Enter your Southeast Key and Password for the Username and Password, and type the aforementioned MAC address into the MAC address field, ensuring to keep the colons in the address.

If you agree to the User Policies, select “Accept”.

Restart the Apple TV, and check to ensure that it is connected.
