

Southeast Missouri State University Greek Five Star Chapter Program

Philosophy

The fraternity and sorority community at Southeast Missouri State University has a long and rich history. Dating back more than seventy years, fraternities and sororities have been an active part of the Southeast Missouri State University and Cape Girardeau community. Each national fraternity and sorority maintains a set of standards that each of its local organizations must meet. In addition, the University's Five Star Chapter Program is meant to recognize the work of chapters and to provide feedback on where chapters can further develop their organizations.

The University's mission is supportive of the goals and ideals of fraternity and sorority membership. These ideals are Academic Achievement, Chapter Management, Membership Development and Education, Civic and Community Engagement, and Harm Reduction/Risk Management. When compared to Southeast Missouri State University's mission statement, which calls for the campus to embrace "...student-centered education and experiential learning," the connection is clear (Southeast Missouri State University Mission Statement, 2017).

Description

Established in 2017, the Five Star Chapter Program provides organizations the opportunity to be recognized with "star standing" in five key areas of chapter operations **1) Academic Success, 2) Chapter Management, 3) Membership Development and Education, 4) Civic and Community Engagement, and 5) Harm Reduction/Risk Management**. Star standing in each of the areas is based upon a set of pertinent criteria. The star standings will be determined by the following point value:

1. Five Star Chapters - Chapters attaining 90% or more of possible points; these chapters are considered role model chapters in these areas.
2. Four Star Chapters – Chapters attaining 75% - 89% of possible points; these chapters are considered effective and strong chapters in these areas.
3. Three Star Chapters – Chapters attaining 60% - 74% of possible points; these chapters are meeting expectations but would benefit from additional work to improve these areas.
4. Two Star Chapters – Chapters attaining 41% - 59% of possible points; these chapters are not meeting expectations and must work to improve their chapter's efforts.
5. One Star Chapters – Chapters attaining 26% – 40% of possible points; these chapters are not meeting expectations and must work to improve their chapter's efforts.
6. Chapter Non-Conforming - Chapters scoring less than 25% of the eligible points or failing to submit any information for the Five Star Chapter Program.

TimeLine

The following chapter data will be collected from chapters on a **calendar year** basis, January through December. All materials are due, via the Five Star submission document in Canvas. **All 5 Star Program materials and submissions must be submitted by a date to be determined once Greek Week 2025 is established.**

Use of Five Star Chapter Program

The Five Star Chapter Program focuses on the actions that chapters take and the structure that they have in place to support their organizations. Chapters are strongly encouraged to submit data for the Five Star Chapter Program or formally notify the Office of Greek Life they do not intend to participate. All chapters will have the outcome of this process noted on the Greek Life website.

The outcome of the Five Star Chapter Program will be shared at the end of Greek Week during the All-Greek Chapter or at another mutually agreed upon date. Each chapter will be awarded the number of stars as defined under the "Description" section. One fraternity and one sorority, if they have achieved at least four stars with the highest total point value, will be recognized as the overall chapter winner for that category. In the event of a tie, each chapter with that point value will be recognized. Chapters that earn most of the possible points through the 5 Star program and have no conduct issues will be awarded the Fraternal Excellence Award.

The diversity of chapters across the fraternity and sorority community requires an awards program that recognizes the differences in size and resources for our many campus organizations. In support of celebrating excellence within our chapters, the Five Star Program includes recognition of the National Pan-Hellenic Council (NPHC) chapter of excellence. This is in addition to any other award that an NPHC chapter may earn through the Five Star Program. The awarding of the NPHC chapter of excellence is based on the total chapter point value of each NPHC participating organization compared to other participating NPHC chapters.

Submission Process

Chapters must address each area in all five sections for their chapter to be properly recognized for the appropriate star rating. Submissions should be clear in terms of the materials submitted and not exceed the word limit set for each question. Supplementary attachments can include items like photos, specific sections of bylaws, or specific materials that add value and support to questions. Submitting written responses as attachments is not allowed and will not be judged. Additionally, submissions must spell out any abbreviations and avoid using chapter specific terms where possible. As Five Star Chapter materials are reviewed by other faculty/staff, they should represent the chapter and every effort should be made to address spelling and grammar issues prior to submission. Each chapter is encouraged to share unique examples of activities or programs that support the chapter's evaluation for each category item.

Only one person, the Chapter President or designee, per chapter may upload the materials, however, the separate areas can be completed by other members of the chapter. Materials must be submitted via the online process shared by the Office of Greek Life. Information on this process will be shared at the beginning of Spring 2024.

Evaluation

The submitted materials will be reviewed by faculty and professional staff at Southeast Missouri State University or invited professionals with experience in Greek Life and/or who work with student organizations at a college or university. Each submission will be reviewed by at least three individuals and the average of those scores will be the score for each item/section. Reviewers are asked to provide written feedback in relation to their scores. Any dispute between panelists will be resolved by the Office of Greek Life.

Confidentiality

The materials submitted to the University for evaluation as part of the Five Star Chapter Program remain the property of the chapter. All materials are uploaded, and printed copies are only made to assist with the evaluation. All physical copies are destroyed after the completion of the Five Star Program evaluation process. Materials submitted for the Five Star Chapter Program will not be shared with other chapters without the permission of the chapter. The one exception to this is information that is already publicly available.
