

Environmental Science: Policy and Communication Option

Bachelor of Science (BS)

Policy and Communication Option

Environmental quality is fundamental to our quality of life.

Environmental science seeks to preserve and improve our environment for ourselves and future generations.

Environmental science is a unique academic program at Southeast. It is an inter-departmental, interdisciplinary degree program based in the College of Science, Technology, Engineering and Mathematics. Environmental science is a diverse, hybrid field of study that is based upon strong training in the natural sciences, mathematics, law, economics and health.

The curriculum for the B.S. in Environmental Science consists of a core of approximately 60 credit hours and 20-30 additional credit hours in one of six degree option areas. All students complete internships and/or research participation. This broad-based education and training provides multiple opportunities for graduates in the growing environmental field.

Environmental science students will...

- Complete a science-intensive interdisciplinary curriculum providing a foundation for addressing environmental issues of today and the future.
- Study in modern classrooms and laboratories in the newly remodeled Magill Hall.
- Gain valuable professional and personal experience through internships and/or research participation.
- Be well prepared to directly enter career positions in the environmental field or to successfully pursue post-baccalaureate education programs.
- Develop the competencies to become professional and community leaders in an effort to develop a sustainable society.

Becoming Career Ready...

/ Faculty-mentored research and guidance will help you develop the professional skills needed for success in a competitive job market and/or advanced study in graduate and professional programs. Students will learn to integrate the art of policy analysis and governmental agenda management with environmental science.

/ The Environmental Science: Policy and Communications option program prepares graduates for multiple opportunities in the growing emergency management field. Example job titles include policy analyst, policy advisor, water district manager, environmental lawyer, and program coordinator.

/ 100% of Southeast programs offer real-world experience. Environmental Science: Policy and Communications option students earn this through completing a required internship and/or research participation with local, state or federal law-makers, appointed policy advisors or private activist or philanthropic group.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities and more.
