

**Bachelor of Science in Business Administration (BSBA)**

# Healthcare Administration (Online)

The U.S. Bureau of Labor Statistics (BLS) reported wage and salary employment in the medical and health services management category is projected to grow 23 percent between 2012 and 2022.

This growth rate is much faster than other industries. While many of these jobs are for practitioners, nurses, and allied health professionals, many others have duties that do not include hands-on patient care, for example: marketing, human resources, finance, and administration positions.

This degree will provide education on the traditional business disciplines with a focus on the healthcare setting.

**Becoming Career Ready...**

/ Qualified, award winning faculty interact with students in a small online class environment.

/ Healthcare Administration graduates are prepared for management positions in the fields of information technology, healthcare administration or business administration. Examples of job titles include hospital administrator, insurance underwriter, healthcare policy analyst, health care program director, public health advisor, insurance company administrator and hospice or elderly care administrator.

/ 100% of Southeast programs offer real-world experience. Healthcare Administration students earn this experience through participating in practicums and internships designed to provide practical experience in healthcare organizations.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests, and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.
